“Petru Poni” Institute of Macromolecular Chemistry Iași is implementing the project “Partnerships for knowledge transfer in the field of polymer materials used in biomedical engineering”. The project is cofinanced by the European Regional Development (ERDF) Fund by the Competitiveness Operational Programme (OCP) 2014-2020, Axis 1 Research, Technological Development and Innovation (RDI) in support of economic competitiveness and business development, Action 1.2.3 Knowledge Transfer Partnerships.

The project aims to enhance the economic competitiveness of small and medium enterprises, which are partners in the project during 2016-2020, following the transfer of knowledge aimed at scientific and technological expertise in the design and development of multifunctional polymer systems that can stimulate a specific biological response and allow adherence and proliferation of a particular type of cell, depending on the tissue to be treated.

Contract no.86/08.09.2016, ID P_40_443, MySMIS 105689, poingbio.icmpp.ro

Beneficiary: “Petru Poni” Institute of Macromolecular Chemistry Iași

Total value: 15 840 978,25 lei

Total eligible non-reimbursable financing amount: 13 400 000 lei

Duration: 60 months

Project cofinanced by the European Regional Development (ERDF) Fund by the Competitiveness Operational Programme (OCP) 2014-2020

Contact details: Project manager: Dr. Magdalena Aflori

e-mail:maflori@icmpp.ro

Address: 41A Grigore Ghica Voda Alley, 700487, Iasi, Romania
