CELLULOSE CHEMISTRY AND TECHNOLOGY

ADVANCES IN THE CHEMISTRY, PHYSICS AND TECHNOLOGY OF POLYSACCHARIDES AND LIGNIN

60♦2026 7 - 8 ♦ JULY - AUGUST

C O N T E N T S

AKERKE KYDYRKHAN and ULANTAY NAKAN, Cellulose nanocrystals from cotton: extraction chemistry, surface functionalization and structure–property relationships – a critical review….....805-821

XINER LI, Preparation, surface functionalization and applications of cellulose nanocrystals: A review ……..……823-847

MINGZE GAO, XIAOPING GAO, XIAORI YANG, MIAO CHEN and LIANHE LI, Effects of CH_3COOH/H_2SO_4 mixed-acid hydrolysis conditions on the yield and physicochemical properties of cellulose nanocrystals ……849-860

MIRJAM LESKOVŠEK and MIRICA KARLOVITS, Influence of measurement geometry on the optical properties of cellulose nanocrystal coatings containing effect pigments …....861-869

TARO KINUMOTO, YUKA TANOUE, KAZUKI NAMBA, XINYU LI, MIKI MATSUOKA and MASAYA MORIYAMA, Roles of particle length and degree of polymerization in the dissolution of bamboo-derived cellulose in low-temperature aqueous NaOH ……871-882

MUHAMMAD FAISAL, MUKHLISIEN, SUFI KHADARSIH, HANIFAH ROSYIDAH, SISWANDA, HERA DESVITA and ERNESTO HERNANDEZ, Synergism of OPEFB-derived liquid smoke, neem extract, gelatin and chitosan in edible coatings. Effects of liquid smoke concentration and pyrolysis temperature on fish ball shelf life ……883-891

AVIKUMAR BAWACNKAR and LAXMIKANT ZAWAR, Development and characterization of xylan-chitosan coated zein nanoparticles for colon-targeted diosmetin delivery ……...893-911

MATEA KORICA, GORAN MILIĆ, FILIP MIŠIĆ, KOVILJKA ASANOVIĆ, MARIJA DIMITRIJEVIĆ, NEBOJŠA TODOROVIĆ and MIRJANA KOSTIĆ, Antibacterial and

antioxidant properties of cellulose/chitosan composite textile materials functionalized with beech wood steaming condensate ……913-927

PRATHAMESH AGRAWAL, SONALI ARSUL, RAKESH DHOLE, HITESHKUMAR CHAUDHARI, AAKASH JETHVA, RAKESHKUMAR DESAI and LAXMIKANT ZAWAR, Development of resveratrol encapsulated zein–gum ghatti nanoparticles: physicochemical properties, antioxidant capacity and cytotoxicity against COLO-205 cells……..929-946

AWAIS MAQBOOL, ZULCAIF, ASIF MAHMOOD, HIRA IJAZ and RAI MUHAMMAD SARFRAZ, Microneedle patch for enhanced transdermal delivery of antihistamine – an innovative approach ……....947-960

ASHISH P. GORLE, JANHAVI WAGH and SWATI RAYSING, Formulation and evaluation of transferosomal buccal film containing empagliflozin – an antidiabetic agent ……....961-978

THANH NGUYEN THI, SON CAO VAN and HANG NGUYEN THI, Advances in bio-based heat-resistant coatings for thermally resistant paper for electronic circuit board applications……..979-985

FILIZ KARA, Green-synthesized silver nanoparticle-loaded guar gum/hydroxyethylcellulose sponges: preparation, characterization and antibacterial activity ……987-997

MUHAMMED SANUSI, JAMIU K. ODUSOTE and KAMARDEEN O. ABDULRAHMAN, Comparative effects of natural potash (trona) and sodium hydroxide mercerization on the thermal stability and crystalline structure of coconut coir fiber ……999-1013

MOGHADASE AKBARI, ELYAS AFRA, SEYED MAJID ZABIHZADEH, MOHAMMADREZA DEHGHANI FIROUZABADI, Comparative evaluation of surfactant-assisted and surfactant-free beeswax emulsions for dip-coating of CMC-modified paper……1015-1026

JESSICA JANE ANAK DONALD, JOSEPHINE LAI CHANG HUI, MAHSURI BINTI YUSOF and QIANG JIACHEN, Preparation and characterization of sago waste-derived cellulose/PVA biofilms for sustainable packaging applications ……..……1027-1036

JIN-YING TONG, SIEW-TENG ONG and SIE-TIONG HA, Kapok-chitosan-ECH composite beads as an efficient and sustainable adsorbent for Reactive Black 5 dye removal from aqueous solution ……..……1037-1054

MEERA MARY ALAPPAT and SANGEETHA SUBRAMANIAN, Cellulose–based composites for boron removal in seawater desalination: a critical review of challenges, mechanisms and research directions ……...1055- 1069

LEONARD IGNAT, FLORICA DOROFTEI, ANDREI DASCĂLU and MAURUȘA-ELENA IGNAT, Activated microcrystalline cellulose matrices by embedding Ag and TiO_2 nanoparticles……1071-1086

MUSTAFA YAZICI, İSMAIL TİYEK, MEHMET BARAN KALIN, ÖMER ÖNAL and NESRIN KORKMAZ, Development and characterization of electrospun nanofiber membranes from Polyamide-6/cellulose acetate polymers for filtration applications …….1087-1102

ASHISH SHARMA, VIKAS RANA, PRAVEEN KUMAR GUPTA and NEETU PANDEY, Rice straw as a dual-purpose feedstock: integrated sugar recovery and cellulosic fiber production for papermaking ……..……..1103-1117

NARCIS ANGHEL, Cellulose, lignin and other natural polymers as sustainable pesticide delivery platforms: a review ……1119-1133
